P2I VISION AND MISSION

VISION

A leading research and policy institution committed to advancing public health and sustainable development in Pakistan and globally.

MISSION

To be a trusted source of policy analysis and generation of high quality evidence for empowering stakeholders to generate positive action through informed debate, independent analysis, human-centric and gender-responsive sound health policies, and youth and public engagement.

OBJECTIVES

To improve and safeguard the health and well-being of the people around the world by:

- Suggesting feasible solutions to public health problems
- Guiding evidence-informed policy reforms
- Research, policy advice, debate
- Provision of a platform for passionate and commitment individuals for pursuing this cause
- Advancing effective planning, efficient service delivery and sound health policies for a lasting impact on the health and wellbeing of the people around the world

ABOUT P2I

DRIVING TRANSFORMATION IMPACT

Creating evidence-informed pathways for transformational impact in health, education and social sector

P2i brings together people from different professional backgrounds, such as health, the arts and academia to explore health in its cultural and social contexts, execute programs of public engagement, create work that is original and impactful, and produce new insights, forms of engagement, methodologies or interventions.

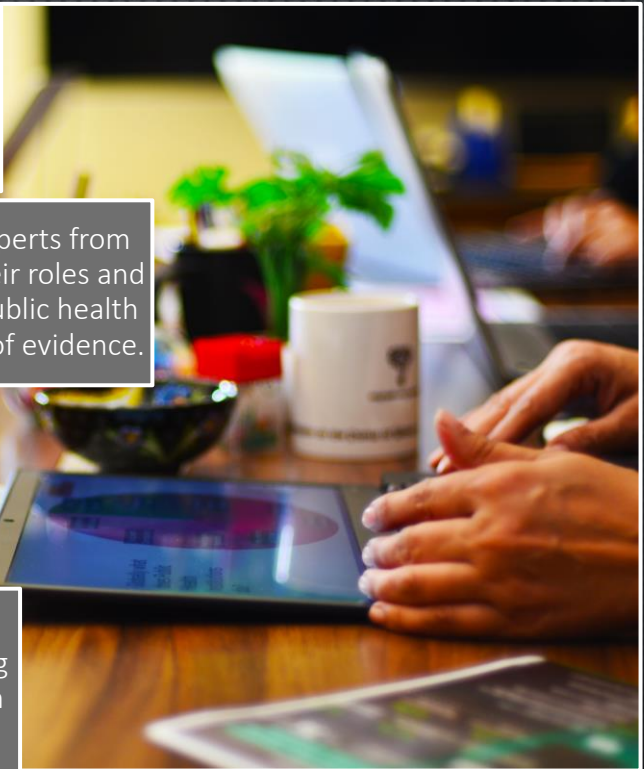

P2I ASPIRATIONS

Be the credible and compelling voice on public health matters, for the public, the youth, and the policy makers, challenging the youth to raise the bar further, for the future generations

Be the platform bringing together seasoned experts from different disciplines, who strongly feel about their roles and possible contributions to the society vis-à-vis public health and can create a collective voice to fill the void of evidence.

Be the platform that connects the voice of technical experts to those in power, the decision-makers of today and tomorrow

Be the aspiration for those who are already in public health and also for those that are aspiring to be, for serving as a platform that helps them excel and contribute back to the society.

P2I – THE TEAM

TECHNICAL CORE

P2i's biggest asset is its technical team of highly qualified professionals. Combining strong academic backgrounds with extensive experience, each one of them brings invaluable set of talents to the core team, balancing innovative thinking with a pragmatic approach. Whether they are conducting research, developing new strategies or providing technical support, our core team of technical experts actively engages with advisors and subject matter experts.

ADVISORS

P2i counts on the support of an extended network of Advisors who have provided valuable guidance and contributed to the quality of services delivered. Our advisors use their invaluable experience and in-depth knowledge of the local landscape to guide the technical teams towards identifying innovative solutions and delivering excellence.

SUBJECT EXPERTS AND ASSOCIATES

For its assignments, P2i engages international and national subject matter experts who are actively supported by young skilled subject associates. P2i acknowledges the support of all its Partners – past and present – for their continued trust and support and for making it possible for us to deliver our commitments. Their subject expertise, analytical capabilities and research skills have been instrumental in delivering our commitments.

OPERATIONS CORE

P2i operations team ensures alignment to the vision and requisite resources engagement for smooth execution of the projects. They develop and execute effective human resource, financial and procurement systems and support effective planning, smooth implementation and periodic monitoring of the P2i projects.

SERVICES- STRIVING FOR EXCELLENCE

P2Impact brings together people from different professional backgrounds to explore health in its cultural and social contexts, execute programs of public engagement, create work that is original and impactful, produce new insights and forms of engagement, design methodologies and interventions.
